

PRODUCT

ULTRAGRIP HANDBALL GLUE**DESCRIPTION**

UltraGrip® Handball Glue is an innovative solution developed specifically for handball athletes seeking superior performance and exceptional control during matches. Unlike traditional resin-based glues, this advanced formula is water-based, which eliminates common problems such as residual dirt on courts and stains on clothing, often associated with conventional products. In addition to its superior performance, the product is dermatologically tested and approved.

COMPOSITION

Water, acrylic copolymer, water-based resin dispersion, preservatives.

INDICATIONS

Adhesive for application on handballs.

BENEFITS

- Superior grip.
- Advanced technology: the only handball glue with a water-based formulation.
- Precision in play: accurate throws and perfect spin shots.
- Clean and comfortable, residue-free: once the product has dried on the ball, transfer to the floor and uniforms is minimal.
- Easy cleaning: it can be easily removed from courts, especially when suitable cleaning products are used.
- Fast process: the product is applied directly to the ball.
- Efficient preparation: allows several balls to be prepared before the game, improving the flow of matches.
